

Algebra 2 : Unit 0 Quiz Content

You will be expected to be able to do the following for the quiz:

- Add/Subtract/Multiply/Divide fractions
- Find Slope of a line given two points
- Identify the slope of a line in slope intercept form
- Solve systems of equations that are graphed already.
- Solve systems of equations (including word problems) using substitution or elimination.

Use the worksheets we have done as study material. If you can do the worksheet problems you will get a 100%. Expect there to be a mix of both free response and multiple choice questions and expect to have more systems of equations questions than fractions/slope questions.
